What St. Luke's, Tokyo Stands For

Medical Education and Research Work

Post Graduate Training for Japanese Medical Students.

Training School for 150 Japanese Nurses.

Research Laboratories for Oriental Diseases and Tropical Medicine.

Philanthropy

Population New York - - - - 5,000,000

Free Hospital Beds - - - - - 15,000

Population Tokyo and suburbs (about) 4,000,000

Free Hospital Beds - - - - - 500

St. Luke's serves rich and poor, Japanese and Foreigner, irrespective of creed or nationality.

Free beds and dispensary at present ministers to over 200 patients daily.

Tokyo is the logical and strategic center for establishing a modern hospital to serve foreign residents and tourists in the Far East.

The only modern hospital from Honolulu to Manila.

Social Service

First work of the kind in Tokyo.

Urgently needed, and great field for usefulness.

Peace International Friendship

Cementing by International co-operation and a living, working organization, the friendship between America and Japan—never more needed than now.

Christian Motive

Fundamental reason for establishing the hospital.

To illustrate by demonstration practical Christianity.

Evangelistic work under the direction of an American Chaplain.

The total cost of the new hospital will be \$500,000. Of this amount \$230,000 has already been given and pledged in America and Japan.

For the completion of the fund gifts small and large are earnestly solicited.

This work can only be accomplished through united effort.

The response of each individual determines the success of this appeal.
